Phonetic Search A Herbal Xanax Alternative - MoodRelief by Cloud Nine Lifestyle MoodRelief for mental vitality Helps you feel Great and keeps you in a good mood.Cloud Nine Lifestyle has developed a new successful formula designed to help you feel great and keep you in a good mood. Our newest MoodRelief formula is 100% natural and is designed to help your body and mind overcome stress, depression and anxiety. Cloud Nine MoodRelief will help you live a happier life and also increase your self esteem and boost your confidence with absolutely no side effects.Cloud Nine Mood Relief, referred to as Herbal Xanax, is a non-prescription herbal medication for anxiety and depression. Anxiety is a problem suffered by 64 million Americans and countless people worldwide. It can be as simple as stress or an undefined restless feeling or as serious as acute panic attacks. When stress and anxiety begins to build up without proper release it can begin to come out in other ways such as irritability, nervous ticks and sudden outbursts, increasing dependence on intoxicating drugs and alcohol, and social withdrawal. Constant worrying and a sense of helplessness are common symptoms and they can be absolutely devastating to work, family and social life.Dos anyone know where to buy herbal xanax? | Answerbag

I m not sure which herb you are referring too, but I know that Skull Cap Root and Passion Flower are both very good at treating Anxiety. They are also mild sedatives, so it s probably wise to take an energy herb to counter act them. For depression, St. Johns wort is very effective. In europe it is actually only available by prescription as an anti-depressant. All of these herbs have far less side effects than their pharmaceutical counterparts, but are also slightly less effective.::: HERBAL
