EAt tramadol, pain, Anadol, Dolol, Ultracet, Ixprim, Dolzam, Tridural, Contramal, Zamadol, Tramadol, Dromadol, Ralivia, Zydol, Tramadex, Zytrim, Tramal, Adolan I have a a??mild forma?? according to my urologist, but the symptoms will drive you literally mad! Some of the treatments are even worse!!! To cut to the chase, I take Ultram 50mg. And do not take Ultram after drinking excessive amounts of alcohol. I have been taking 400mg ultram for 2 1/2 years. I don't even drink anymore because I don't want to ruin my buzz while I am on the Ultram. maybe he didn't quite understand where you're at with the ultram and thought he could start you on a super low dose or something. Also avoid Ultram after taking large doses of sleeping pills such as Halcion, Dalmane, and Restoril; narcotic pain relievers such as Demerol, morphine, Darvon, and Percocet; or psychotherapeutic drugs such as antidepressants and tranquilizers. If you take Ultram/Ultracet for the disease, it cannot be called the addiction. With Ultram, it seems people are lulled into a false sense of security, and it sucks. i have been on ultram for 2yrs now i was normally taken 2a:m 2 midday 2p:m well the problem now is i moved out of state, and the dr i saw last week only gave me 30. i usually take the 50mg ultram, but i dont know how to take the ultracet without knowing the mg.
